CREATE WITH ETHAN ALLEN

How do you transform an undecorated above-garage bonus room into a **comfortable guest suite full of drama and luxury?** Ethan Allen designer Roxanne Jitomir was given just a vision, a vibe, and the client's full trust; she drew upon her creativity and skills to handle the rest.

Roxanne Jitomir
Wilmington, NC

Starting with a modern black-and-white palette, she first recommended painting the walls black with a semigloss sheen, then recommended **our Colton bed, tailored in jet black, crocodile-embossed leather.** "We show our Colton bed in so many ways," says Roxanne, "but this made it look like a whole new piece."

Roxanne then drew upon her background as a fashion and TV set designer—she's worked on shows like *The Bachelor* and *The Bachelorette*—to create a bold mix of fabric patterns for both upholstery and custom bedding. "The beauty about Ethan Allen is that you can get things nobody else has. We can create something so special for you that you can't find anywhere else."

When asked what her clients are looking for these days, Roxanne sums it up in one word: color. "People want modern spaces that mix in organic elements," she says, "and they're coming back to rich tones like terracotta, emerald, and aubergine."

Start with one wish, one idea, one thing you love—you'll be amazed by what an Ethan Allen designer can create. **Visit a Design Center or schedule a complimentary home call to discover the true potential in your home.**

MADE FOR YOU & BUILT TO LAST

WE HEAR IT ALL THE TIME: "I GREW UP WITH ETHAN ALLEN, AND I CAN'T WAIT TO PURCHASE ETHAN ALLEN FURNITURE FOR MY OWN FAMILY."

WE'VE BEEN A PART OF FAMILIES' HOMES—AND LIVES—
FOR 92 YEARS AND COUNTING.

There's long-lasting value in a piece of furniture made by hand to a high standard of quality. That's why we still mill many of our own logs, kiln-dry our wood, and craft most of our furniture ourselves.

Years ago, we watched many furniture companies move their manufacturing overseas. We chose to stay close to home, where our company began—and where **we still craft about 75% of our furniture in our very own workshops.** It takes time to craft something valuable—no fast furniture here—and for almost a century, the results have been worth the wait.
